Uninformed Consent : The Hidden Dangers In Dental Care

Synopsis

Dr. Huggins and Dr. Levy assert that a large number of disorders are, though often incurable, easily preventable. He proposes that multiple sclerosis, lupus, leukemia, chronic fatigue syndrome, Parkinson's disease, many mental disorders including Alzheimer's, and even major diseases like breast cancer are caused, in part, by the toxins we place in our bodies. Where do these toxins come from and how do they get into our bodies? You may be surprised to find that you have actually paid to have them put there. These dangerous materials--mercury, cadmium, beryllium, nickel, and others--are used in everyday dentistry to make up the fillings, root canals, and bridgework in our mouths, and are supposed to be "safe." But are they? *Uninformed Consent* presents cases of toxic poisoning--of depressed immune systems and inexplicable illnesses--to toxins entering the bloodstream from the heavy metals in dental materials. The authors also discuss the hidden truths that the dental industry in America doesn't want to talk about, and the real reasons the dangers of these materials have been suppressed and ignored. Drs. Huggins and Levy implore the reader: "Don't leave your health in your dentist's hands and assume that all will be fine. Become informed and take an active role in your health. Know what will be implanted in your mouth. You must decide at the outset what is more important to you--the life of a filling or your life." *Uninformed Consent* will give you the facts so that you may take responsibility for your dental--and complete--health and wellness.

Book Information

Paperback: 280 pages

Publisher: Hampton Roads Publishing; 1 edition (January 1, 1999)

Language: English

ISBN-10: 1571741178

ISBN-13: 978-1571741172

Product Dimensions: 1 x 5.8 x 8.8 inches

Shipping Weight: 12 ounces (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars [See all reviews](#) (58 customer reviews)

Best Sellers Rank: #312,368 in Books (See Top 100 in Books) #57 in [Books > Medical Books > Pharmacology > Toxicology](#) #303 in [Books > Health, Fitness & Dieting > Safety & First Aid](#) #6538 in [Books > Health, Fitness & Dieting > Alternative Medicine](#)

Customer Reviews

This is written particularly in response to Kavity Killer's party-line review of this book: I have been

directly involved in clinical dentistry for over 40 years. Quackwatch is full of beans on this matter, as they are on many other issues as well. They are backed by the AMA and ADA, etc, so know that there are a lot of god-like egos on the line here. Many mistakes have been made by AMA/ADA members and to be exposed would be a huge loss of face, not to mention the astronomical costs of potential litigation and case settlements. They do NOT want to go there! Sadly, our cultural worship of material success has led to a level of greed that trumps the oath to "First do no harm." It didn't just happen over-night. The AMA/ADA has been in bed with the Pharmaceutical industry for at least 50 years. The trickle-down effect this had on individual doctors and dentists was slower in developing, but has seriously infiltrated the general ranks in medical and dental schools, and private practices over the past 20-25 years. Many health professionals DO continue to fight this trend, but Pharma has enormous financial resources [ie, power] and the greed-based commercialization of US Healthcare is the result we all suffer. The problems are insidious as in many instances, Pharma subsidizes entire hospitals, medical schools, and research programs, as well as many of the doctors who write medical textbooks. Consequently, their own products and protocols become the de facto treatments that all health professionals learn before they ever even see their first patients! Not to mention Pharma's infiltration into the FDA, with the subsequent "fast-tracking" of questionable drugs into the marketplace and into our bodies.
