## Customer Reviews

This book was good and had great ideas for developing outdoor environments for preschool and head start programs. If you need some new ideas this would be a good book to purchase.

Bought it for school, but really enjoyed the information about how children learn in the different ways when they are in the same room as other children.

Very interesting this book, helping me a lot, you sending it on time. Thanks!!

Book is good, just what I needed for my class.
