# Witchy Sour (The Magic & Mixology Mystery Series Book 2)

## Synopsis

Book 2 of the Magic & Mixology Mystery Series by USA TODAY bestselling author Gina LaManna! A dark stranger. A deadly potion. A school for scoundrels... Lily Locke has barely had time to sink into her role as The Isle's newest Mixologist, when a series of events sends her world spiraling out of control. Her vampire cousin is overtaken by a serious bout of blood intolerance issues, and the key ingredient for the antidote is missing. Meanwhile, Zin is training day and night under the watchful eye of Grandma Hettie to break into the elite, male-dominated world of the Ranger security force, but it's a constant uphill battle. Then, Ranger X turns Lily's world upside down when he breaks the longstanding rules of the island and throws both her heart and her head into a tailspin. Hooded strangers, dangerous potions, and a budding romance threaten to ruin all that Lily's worked to achieve. Add in a stolen spellbook, and Lily's barely able to hold her head above water. When a body turns up on the beach, Lily must catch the murderer before a true battle begins... Welcome back, Islanders. \*\* \*\* This novel is a full-length, humorous cozy mystery featuring a splash of magic, a handful of witches, and a dash of romance. It's rated PG-13 due to mild language and some romance.

## Customer Reviews

I enjoyed the first book and went right into reading the second. I enjoyed this one as well but there are several inconsistencies that made reading less enjoyable for me as I was continually distracted by them. Spoilers ahead so stop reading here if you don't want the story ruined. In the first book her aunts give her the other half of a locket that is supposed to protect her from harm. It's never mentioned again although it's supposedly a cherished keepsake. And--it certainly doesn't protect her from harm in either book! In the first book her mentor shows her the big book of mixology but specifically says in a couple of different places that the book is more for him to help her keep track and that her talent is inherent in her and she would not need it. In spite of her inherent talent, she has to memorize the entire book which she does by the end of the first book. In the second book, the mixology book is stolen and suddenly she can't function without it and has difficulty remembering ingredients in the book. What happened to her inherent talent? She's apparently in danger from a killer and gets kidnapped (and of course rescued!) at the end of the first book. The second book picks up almost immediately in the timeline and yet no mention is made of the kidnapper, who hired him and whether she is still at risk. She's just living life and heading out on her own with no concern. This makes no sense to me. End spoilers! I really like the premise of the stories and the world building and I'll probably go ahead and read the third book but I would strongly suggest this author find a good editor.
