excellent discussions to read and takes away the guilt the problem drinkers tend to dump on the sober members of the family. The problem addicts can't take responsibility and always setting up others to take the blame. The children will not necessarily get sober, they have to see that the alcoholic parent is actually very sick and stop blaming the other parent. Why would they when they wish to be drunks themselves. The alcoholic often owns the children as the sober parent thinks differently, and he disturbs their sense of justice.

Very insightful reading. I haven't finished the book yet, but what I have read so far has made sense.

Not only has it given me helpful information, it is also helping me understand "why" I am living through this nightmare...

Very good information included in this. However, it is more geared toward children still under 21 living in your home. In other words, doesn't really apply to grown children living on their own.

Good to read by parents and spouses of alcoholics. Getting all of her books on this topic is a big help, too.
