Customer Reviews

This is a list, in order of the dale brown series of books. I started reading them several years ago and lost track of what the last book was that I read. This list has helped me to pick up where I left off and not buy duplicates of what I have already read. It would be nice if other serial stories published the same type of list, as many of these build on previous books.

A disappointment. Can find the information on Wili! A synopsis of each book would at least improve the list! (And I have a book that is not on the list!)

Disappointed as it does not bring the lists of books up to date.

Useful if you want to read all the books in order or figure out which book follows which book.
