Dispatches: A Post Apocalyptic/Dystopian EMP Thriller (The Perseid Collapse Series Book 4)

Synopsis

DISPATCHES (Book 4 in The Perseid Collapse Series):On August 19, 2019, a rogue Chinese military cabal launched an opportunistic EMP attack against the United States, triggering a cataclysmic chain of events--with the potential to change world forever. With the United States crippled, belligerent powers rise to fill the void overseas, catapulting already volatile regions into chaos and war--hastening a worldwide collapse. On the home front, most citizens continue to struggle with the loss of power and critical infrastructure, exhausting their thin supplies and turning to the mercy of an overwhelmed government to survive the winter. As spring arrives, Alex Fletcher faces a difficult choice. With their food supplies running low, Alex questions the feasibility of staying with the Thorntons and Walkers at their isolated lake community. While searching northern Maine for a solution to his dilemma--he stumbles on a secret with the potential to destabilize the entire region. Dispatches concludes The Perseid Collapse Series, answering reader questions about the world scene, while cleanly delivering the Fletcher's fate. Book number five of a five book series. This is actually a four book series plus a prequel book, The Jakarta Pandemic. The book is a POD, print on demand, printing in trade paperback (my favorite!). Six years after the Jakarta Pandemic in 2013 that killed 30 million people in the USA and one billion people worldwide, the USA economy has mostly recovered from the pandemic. Then, an asteroid entered the atmosphere traveling low over Boston and crashed into the Atlantic. The author never explained where the asteroid came from but that it was "as large as a city business center". The USA government did not detect the asteroid which seems a little far fetched to me. The kicker is that the PRC used the satellite event to explode a large nuclear bomb in LEO over the eastern USA. The resulting asteroid passover over Boston, 60 foot tsunami, and EMP practically destroy the entire eastern seaboard of the USA. Please note that this explanation is not consistent over the books. The first book in this series is the prequel flu pandemic that happens in 2013 with severe loss of life across the world. The second book is the first 48 hours after the EMP event in 2019. The third book is the second 48 hours after the EMP event. The fourth book is the next two weeks, starting at four days after the EMP event. The fifth book, this book, is basically two novellas put together. The first portion of the book is what happens to the rest of the world while the USA puts itself back together. China invades Taiwan, Russia invades Ukraine and Poland, are a few items. The USA deals a little revenge of its own, EMPing China using two submarine launched nuclear bombs at 65,000 meters (200,000 feet) over Beijing and Shanghai.
