Customer Reviews

I could not finish this book. The story started out very interesting. Both King and Abbie showed promise. She was very strong willed. He, being president of his club, seemed strong, powerful even. 26% in, all that changed. After sleeping together, "during/after first date," she slept with him, in his bar. She had concerns of being around a criminal, yet ran headfirst into it. He became attached, focused on her. She decided it was too dangerous. He respected her decision and stayed away. She came to him anyway and it's been non-stop sex. Where is the story? The danger was the rival gang and the cops sniffing around. She was so in to her career and goals for her life. The danger is imminent, and yet, all they do is have sex. Ridiculous nonsense. What happened to the story. I don't believe I will be finishing this story. It was quite disappointing. It may end up being exciting, but I can't get passed the abrupt changes in the King and Abbie's character to continue. Did I mention the lack of editing. The editing was horrible. Normally it doesn't mess with the flow of the story, but this was quite distracting.

What do you get when you cross a stubborn woman with an incredibly HOT Alpha Male MC president? A battle of wills and one hell of a steamy relationship that what. King and Abbie meet when his MC hangs out in the parking lot of her apartment building late at night making noise and keeping her awake Abbie gets irritated and goes down to give them a piece of her mind only to unknowingly end up carrying drugs King was about to hand of to his rivals in her backpack when the cops show up. The next morning Abbie finds the drugs and knows King will be back for them so she is prepared to give him grief when he shows up to collect she isn't prepared for his request to make it up to her and asking her out. This is a match made in heaven and this couple is Hot in all the right places. King has a lot going on and a cop out to get him but will stop at nothing to protect Abbie and his MC. The good guys win this one and the HEA is all either of them could ask for.

I received this book as an ARC for an honest review. I found the book to be lacking. The storyline is okay, but could have been better developed. King and Abbie have nothing in common. The only chemistry or connection they have is sexual. They cannot even go to dinner and have the ability to carry on a conversation. Storylines need to be better written. I found it interesting that Abbie is upset that she ends up with King's drugs for fear she could be arrested, but when he comes back to get them and wants to take her for a ride on his motorcycle, she has no problem jumping on it with him and taking off, with the drugs in his possession. I found myself feeling I must not have received all the pages of the book when I read some of the storylines. Don't know that I will read this author again.

The storyline sounds good and the plot was a good one, but the story itself, just left me wanting something more. There was very little excitement in the story. The author would build up the story and then the next thing after the build up, it was just done & over with and on to the next part of the book. It was really a let down. To me, this was just an ok read, but I was glad when I was finished.

I was asked to be an ARC for my honest review. I loved this book. I have read her before and really enjoyed this one. It kept my interest which is hard. A definite read. King is a bad boy biker and president of his club. He is meeting with another club at an apartment complex where Abbie lives and they keep her up. Abbie is a little firecracker and take no shit. She marches down there to give them a piece of her mind. When the cops show up King hides drugs in her backpack. He come to get them the next day and asks her out. She says yes and they go out and have sex. Sparks fly but she doesn't want that life so doesn't want to see him again. But she is in danger and he doesn't give up. It is a great story you must read lots of twists and turns. Double thumbs up..

If you want a lively, sexy, action read this book ticks all the boxes. The two main characters are poles apart in what they like in a mate, Abbie hates bikers and their lifestyle and King dislikes stropky wilfully minded females. But overtime their opinions change and come to love each other. King is also going through a life change and wants more out of his life, which causes a lot of conflict in his personal and professional life. Running through the story is a violent relationship with a rival gang which causes death and mayhem, ending in a climatic situation and his girlfriend's impending demise. On the whole a fun read, King is lovely kind, conflicted, loyal and incredibly sexy, the sex scenes were nuclear, yum. Abbie was great, no simpering wuss, she was stropky and outspoken and gave King a run for his money, which he loved. I was given this ARC, for my honest review

I got this book as an ARC program in return for my honest review. This book was a little hard to read with all the ands & buts. If you can get passed all of them, then there is a great story to be had by Abbie and King. King is the leader of a motorcycle gang. They hang out in the parking lot of Abbie's apartment building. Abbie has a misfortune of being the head of the apartment association. She gets to go and confront King. One thing leads to another and we have a story. I was satisfied with the ending because the most of my questions were answered. Enjoy your reading.
